

WHAT YOU NEED TO KNOW FENTANYL

On September 27, 2021, the US Drug Enforcement Administration (DEA) issued its first Public Safety Alert since 2015 to warn the American public of “the alarming increase in the lethality and availability of fake prescription pills containing fentanyl and methamphetamine. Fake prescription pills are widely accessible and often sold on social media and e-commerce platforms – making them available to anyone with a smartphone, including teens and young adults. These counterfeit pills have been seized by DEA in every U.S. state, and in unprecedented quantities.”
