

BARRINGTON PLANT CLUB

SHOP-N-SHARE FOR BSTRONG TOGETHER

**Wish it was cheaper and easier to get great plants for your yard?
Want to spend more time gardening than going from shop to shop?
Love it when plants are fresh from the grower?**

Our FREE plant buyers' club has helped neighbors like you get the plants they want from the same sources the pros and garden centers use at great prices.

How does it work?

Several times a month during the Midwest spring and summer garden season, the Barrington Plant Club provides access to all types and sizes of plants and prices from a rotating list of hand-selected nurseries and greenhouses.

Browse plant photos and information on our easy-to-use website. When you see plants you want, just add them to your shopping cart, check out, and the plants arrive the following week. Delivery is available upon request (for a small fee), in most areas.

Or, choose to pick them up at a local neighbor's home. Our Plant Club hub leader will love to meet you!

Need extra gardening and plant help?

Send us a note at help@northshoreplantclub.com and we'll connect you with some of our great teammates who can efficiently and affordably help you plan a new area in your garden, or coach you on how to care for your current garden.

The Plant Club is a great option for a new homeowner who inherited a garden but isn't quite sure what to do with it, how to expand on it, or how to care for it!

BStrong Together

BStrong Together is a Barrington area community coalition organization that brings together stakeholders including students, parents, educators, community members and organizations to enhance the health and well-being of our community's children and youth in mind, body and spirit.

Focused on mental health, the promotion of a healthy lifestyle, suicide and substance use prevention, strong family and community connections, and positive parenting, BStrong Together provides free educational programming, support, and resources in our shared goal of raising healthy, happy, resilient, and adaptable youth prepared to navigate the complex world of today and the future.
